Cold Saw Blades series

Cold Saw Blades series

— Peak-performance saw blades for ferrous materials. —

High cutting speeds

Excellent finish

Extended life

KAMIYA Saw & Knife is the circular saw blade manufacturer in Japan since 1953.

Cold Saw Blades series

Saw Blade Sizes

Diameter	Kerf	Bore Size	Tooth Count
250 mm	2.0 mm	32, 40 mm	60, 72, 80, 100
285 mm	2.0 mm	32, 40 mm	60, 72, 80, 100, 120, 140
315 mm	2.0 mm	32, 40 mm	60, 72, 80, 100, 120
360 mm	2.6 mm	32, 40, 50 mm	60, 80, 100, 120, 140
425 mm	2.6 mm	40, 50 mm	60, 80, 100, 120, 140
460 mm	2.7 mm	40, 50 mm	60, 80, 100, 120, 140

*560 mm, 580 mm, 600 mm, 630 mm, 750mm, 830mm and other sizes available for custom.

1 "Best Steel"

Uses only the very best steel for the saw body. It is very flat and best surface and tension for peak-performance cutting.

2 "Special Tip"

Uses only the very best cermet/carbide tip and designed for peak-performance cutting.

3 "JAPAN PRIDE"

The saw blades made by Japanese Saw Meister, made in Japan for peak-performance cutting.

4 "Custom for You"

We offer you the saw blades for your cutting material & machine.

Machine

Tsune, Nishijimax, Amada, Kasto, Wagner, Bewo, Everising, Nakata, Kusakabe, Endo and others

Cutting Material

- Steel
- Stainless steel (SUS)
- Copper Alloy, Aluminum Alloy

Cutting Diameter

- Solids Cutting from 10 to 260 mm
- Tube(Thick wall, Thin wall)

Typical user

- Automotive / Motorbike Industry
- Steel Forging Industry
- Steel Service Centers
- Bearing Manufacturers
